

# Medicare Supplement Plan Reference Tool

## Available Plan Options

Use this informative infographic as a tool to help you determine the Medicare Supplement plans available for your customer.

### How did MACRA change Medicare Supplement?

Due to Medicare Access and CHIP Reauthorization Act, Medicare Supplement plans were affected.

For people that become eligible for Medicare in January 2020 and after, MACRA eliminates the “first-dollar” plan options (Plans C and F) that include Part B deductible coverage.

For more information, reference the Medicare Supplement MACRA FAQ document on MIC.

\* In waiver states, people who become Medicare eligible in Jan 2020, or after, cannot purchase a Part B deductible rider.
